<p>Teaching Constructive Thinking (Webinar) Following the success of the Edward De Bono training offered last year to CDETb staff through the ePathways project, we are delighted to offer this webinar which will be facilitated online by Nigel Newman from the Edward De Bono Foundation.</p> <p>The webinar will support the development of creative learning based on the Cognitive Research Trust Thinking Programme (CoRT) which is now the most widely used international programme for the direct teaching of thinking in Schools and is easy to use and quick to produce results. Thinking is a most important human life skill both for individuals and society. However, like literacy and numeracy, it is a skill that has to be learned and practiced to be effective. This is especially true of creative thinking where we generate completely new ideas that haven't been considered before. Many people believe that only really gifted or highly intelligent people can be good thinkers. This is not so. Like any other activity, once the thinker has acquired the skills and techniques, they can control and direct their thinking at will. We call these techniques "operacy" – the management of thinking about doing. We use these "thinking tools" to help with this process. They may seem unusual at first but like any other tool, they are there to make life easier. This session will present some of the tools and techniques from the Cognitive Research Trust programme for Schools.</p>	<p>The webinar is open to any CDETb staff member. (Maximum No 100)</p> <p>Due to the online nature of this session pre booking as early as possible is essential.</p> <p>Once registered each participant will be provided with a personal link so that they can access the webinar on the evening.</p>	<p>Facilitated by Nigel Newman Edward DeBono Foundation</p>  <p>with the support of ePathways and H2 Learning</p> 	<p>Venue: Online Date: <u>Wednesday 24th September</u> Time: 20.00-21.00</p> <p>N.B. Bookings for this particular CPD event can only be made online using Eventbrite. Please do not email the CDU The link to Eventbrite is: http://cdudebono.eventbrite.com</p> <p>Once you have booked a place a unique link will be sent to you by email so that you can access and participate in the webinar on the night.</p>
<p>Mediation and Conflict Resolution – A Taster Session This session for CDETb staff will provide a two-hour introduction to mediation and conflict resolution skills.</p> <p>Participants will also hear about a 60-hour certificate course developed by Drumcondra Education Centre that aims to further advance participants' professional development in acquiring mediation and conflict resolution skills</p> <p>The Certified Course is accredited by the Mediators Institute of Ireland (MII) providing recognised accredited mediation training for professionals in both the private and public service sectors.</p>	<p>Management and teachers / tutors in CDETb schools and centres.</p> <p>The session may also be of interest to admin staff in management roles in CDETb</p>	<p>Facilitator is kindly provided and funded by Drumcondra Education Centre</p> 	<p>Venue: <u>Drumcondra Education Centre, Maple Room</u> Date: <u>Thursday 25th September</u> Time: 19.30-21:30</p> <p><i>Drumcondra Education Centre is located on the grounds of St. Patrick's College of Education Campus in Drumcondra, Dublin 9. Enter main gate of College, Education Centre is 1st building on the left inside the gate. (Red Brick).</i></p>
<p>Khan Academy Symposium (1 Day) On September 27th, the first ever Khan Academy MATHS Symposium will bring together educators and parents from across Ireland to learn about Khan Academy, the global leader in free online maths learning. CDETb Further Education Teacher Network MATHEMATICS at NFQ Levels 3, 4, 5 and 6

Many further education teachers in CDETb have expressed an interest in linking with other teachers with a view to developing and/or sharing ideas, resources, class materials, assessment instruments, etc. This meeting aims to 'kick-start' such a network for further education teachers delivering Mathematics at NFQ Levels 3, 4, 5 and 6. The success of such a network is dependent on the number of participants, so please come along to support the network.

This session will also include:

- A short introduction to the CDETb's ePortfolio developed between 2012-2014 as part of ePathways, an EU funded transfer of innovation to CDETb to support CPD. This is where the Mathematics Network will be located
- SigMath resources.

SigMath is a European funded project that has developed tutorials to help adult learners to develop their mathematical competences in a blended e-learning setting. Resources are freely available online at www.sigmath.eu. The SigMath approach allows learners to experience a more personalised learning experience and learning to take place outside of the traditional teacher-led classroom.

SigMath e-Learning Platform supports face-to-face learning and is a place where adult learners can practice their Maths skills using a problem-based approach and real-life examples

SigMath Tutorials, a suite of innovative training modules on selected Maths concepts. The Platform contains 19 Tutorials, each designed to take a notional 30 minutes of student time.

Trainers Toolkit for Blended Learning includes a set of guidelines for using the platform, resources and lesson plans.

ePathways Seminar (1/2 Day)

This seminar will formally launch the ePathways project, offering attendees the opportunity to see and experience the ePathways outcomes. ePathways is an EU-funded transfer of innovation to CDETb, where CPD resources such as an ePortfolio, CPD resource booklets and a CPD policy were developed for CDETb.

Following a brief overview of the project there will be a number of CPD workshops for management and teachers / tutors. There will be a choice of workshop themes including: Learning walks, STEPS and SUMO student behaviour, DeBono thinking skills, Using social media in class, internships for teachers.

CDETb management in schools, colleges and centres and teachers / tutors they would like to nominate to attend.

Workshops will be facilitated by expert trainers from Koning Willem I (Netherlands), City College Norwich (England), Kaunas Technology University (Lithuania) and H2 (Dublin).

<p>De Bono Creative Thinking / Power of Perception™ (1 Day)</p> <p>As part of the ePathways project a number of CDETБ staff members have had the opportunity to see some of De-Bono's techniques in use in Europe and have been impressed by the effectiveness of the techniques in helping to apply different perspectives, creative thinking and problem solving to students work and school life. In addition CDETБ management and staff participated in a very successful training day in November 2013. We are delighted to be able to welcome back Nigel Newman from the Edward De Bono Foundation to repeat the seminar again for another group of CDETБ management and staff. The training day will focus on 'The Power of Perception'™ tools that provide simple but effective strategies for sharpening perception and focusing thinking in a more comprehensive, effective and efficient way. The tools can help management, teachers or students to take a broad and inclusive viewpoint. The tools create a framework for defining a situation and improving one's ability to consider consequences before taking action.</p>	<p>CDETБ management and teachers / tutors</p> <p>Places on the training day will be limited to schools and centres that can commit to sending three staff members, one of which must be senior management.
